***How we give Point are MTT Leader Board?**

This is he formula that we use.

Cell A1 = Prize Pool

Cell A2 = Place Finished

Points = $\text{POWER}(A1, 1/2) / \text{POWER}(A2, 3/5)$

So, Example

Price Pool is 1000 and player came 2 place total points will be 20.86.

<https://www.pocketfives.com/plb-calculator/> this is the link on how the points are given.

4% will be taken from all tournaments price pool.

The 4 % will be for Leaderboard.

If we the Tournament will have a GTD Price pool and the GTD will not be reached no 4% will be taken.

So 4% will be only taken If the GTD will be reached.
